

Film content and editorial (Video Editor)

Volunteer Specialist

MCR Pathways

Glasgow

MCR Pathways is a Scottish, school based mentoring programme supporting those in or on the edges of the care-system to realise their full potential through education. MCR Pathways works in all Glasgow's secondary schools and in schools in Aberdeen, Aberdeenshire, Edinburgh, North Ayrshire, South Lanarkshire and West Dunbartonshire. The programme supports almost 2,000 young people each week. MCR supports them to find, grow and use their own talents and skills.

We are currently recruiting experienced film and video experts who are passionate about our aspirations and can capture vital moments at MCR Pathways. We would be delighted to hear from volunteers who are able to edit our current video content and inspire us to create new and engaging marketing materials.

Successful volunteers will have:

- A passion for volunteering and understanding of the benefits it can bring to volunteers, communities and the city, including our MCR Pathways programme;
- Some knowledge of video editing software - iMovie, After Effects, Premier Pro etc.
- Some experience in editing videos, creating animations / GIFs
- Ability to work independently

Full induction and appropriate training will be provided for the role, with full ongoing support. This opportunity will give a volunteer to meet new people, an opportunity to develop their own skills set and be part of the MCR ripple effect.
