---

## Executive Summary

MCR Pathways now has established trusting relationships with, and support of, over 6,000 of Scotland's most vulnerable young people. The target group of young people are either 'care experienced young people' or those considered by the schools to be on the 'edges of care or vulnerable'. The latter include those in informal kinship care, experiencing family bereavement, young carers, asylum seekers or refugees, living in families with the addiction issues, with a family member in prison, or on cusp of social work intervention.

MCR mentoring is now evidencing its impact in city, town, rural and island settings. It has recruited and established local partnerships for mentor recruitment and engaging all local communities. The delivery of the programme aligns with delivering on The Promise and the national all-party commitment that care experienced young people should "grow up loved, safe and respected so that they realise their full potential."

MCR's evidence-based, data-driven impact on transforming education outcomes, employment pathways and life chances, is underpinned by building each and every young person's capability to enhance their confidence, skills and self-esteem. The design of the programme is tightly engineered to closing the attainment gap, developing a skilled workforce, securing a fairer and more equal society, driving forward a wellbeing economy and guaranteeing social mobility, supporting mental health and many other key policy objectives.

MCR is a proven early intervention model to help ensure young people are determined by their talent and potential and not their circumstances. Circumstances, which if left unsupported would significantly increase the social costs in more acute mental health and physical health services, social work intervention and impact other welfare and social justice systems.

The impact of MCR mentoring in post school destinations in particular progressing to college, university or employment is evident across the country. MCR data taken from Skills Development Scotland SLFU report for 2023 leavers has shown that:

- **82.1% of MCR mentored care experienced young people progressed to the higher level of positive destinations of college, university & employment in the new MCR areas.** This contrasts with the **national level of all care experienced young people of 73.3%.** MCR estimates that **the national number drops to 69.1% when MCR young people are excluded.**

- Our most mature area - Glasgow - achieved **83.9%**, bringing the **total of MCR mentored care experienced young people who left school across Scotland up to 82.9%**.
- The figure for young people who **were not mentored** in areas that MCR operates in was **64.1%**.
- **98.5%** of mentored care-experienced young people in Glasgow achieved a **Scottish Government broader definition of positive destinations compared to 87.9%** of the care-experienced young people nationally.

Across Scotland, attainment figures increased significantly for MCR Mentored care experienced young people in comparison to the national average for care experienced young people.

- S5 MCR care experienced young people **achieving at least 5 qualifications at National 4 was 86.6% in comparison to the national care experienced level of 61.2%**;
- S5 Mentored young people who **achieved at least 1 qualification at National 5 was 89.8% in comparison to the national level of 65.7%** and;
- Those **achieving at least 3 qualifications at National 5 was 66.7% relative to the national care experienced level of 43.8%**.
- **41.3% of MCR mentored care experienced young people** nationally achieved **at least 1 Higher qualification** before leaving school in comparison to the national level of **29.2%**. This figure rises to **48.2% in Glasgow**, our longest standing implementation of the programme.

Mentored young people report high levels of improved confidence, goal setting, belief in themselves, and trusting relationships with mentors in survey feedback. The programme also provides enhanced pastoral care support by embedding Pathways Coordinators in schools to work closely with teachers and school staff. Schools report the programme increases capacity and awareness around supporting vulnerable young people while providing vital mentoring relationships. MCR continues to target its support into high need areas.

- In the year-end survey, **83% of mentored young people stated that having a mentor improved their confidence, 83% said it helped them understand their talents and strengths, 86% said it supported them in identifying goals, and 85% said it helped them believe in themselves more.**
- Since the programme received Scottish Government funding, over **165,000 mentoring hours** have been recorded, despite the initial expansion taking place during lockdown.
- **71.8% of young people supported by MCR nationally are from the 40% most deprived areas** based on the Scottish Index of Multiple Deprivation (SIMD).
- **70% of Glasgow MCR young people live in the most deprived 20% of the country** yet with MCR support consistently achieve the increased level of outcomes
- **60.6% of MCR young people are registered for free school meal entitlement**, indicating high levels of deprivation.
- Similarly, **65.6% of MCR supported young people have one or more additional support needs**, further highlighting the vulnerabilities they face.

The transformational impact of MCR Pathways mentoring continues in Glasgow and is proving to be repeatable and scalable across the country. The strength of the stakeholder quotes and case studies demonstrates the depth of partnership engagement, quality and impact of the programme

## 1: Impact on Education Outcomes - National

The following section provides a summary of rolled up data and statistics from the last academic year across **all areas** nationally where the MCR Pathways programme is operational.

# AN HOUR A WEEK, A LIFETIME OF IMPACT

## MCR Young People across Scotland (in the last year)...

 **5,109**  
young people  
Supported

 Representative of cities, towns, rural & island areas.

These  
include  
those...

**WITH  
SOCIAL WORK  
INVOLVEMENT**

and...

**CONTINUOUS  
INSTABILITY  
AT HOME**

- Looked After At Home
- Looked After Away from Home
- Informal Social Work supervision
- Previously Looked After

- Addiction issues
- Asylum seekers & refugees
- At risk of homelessness
- At risk of social work
- Informal kinship care
- Parent in prison
- Parental bereavement
- Prolonged financial hardship
- Safeguarding concern
- Serious illness
- Teenage pregnancy
- Lack of one good adult
- Young carer

**71.8%**  
of young people  
supported

by MCR nationally are from

**40%** of the most  
deprived areas

\* Based on the Scottish Index of Multiple Deprivation (SIMD).

**60.6%**

of MCR  
young  
people  
are  
registered for free  
school meal entitlement,  
indicating high  
levels of deprivation.

**65.6%**

of MCR supported  
young people  
have one or more  
additional support  
needs (ASN)

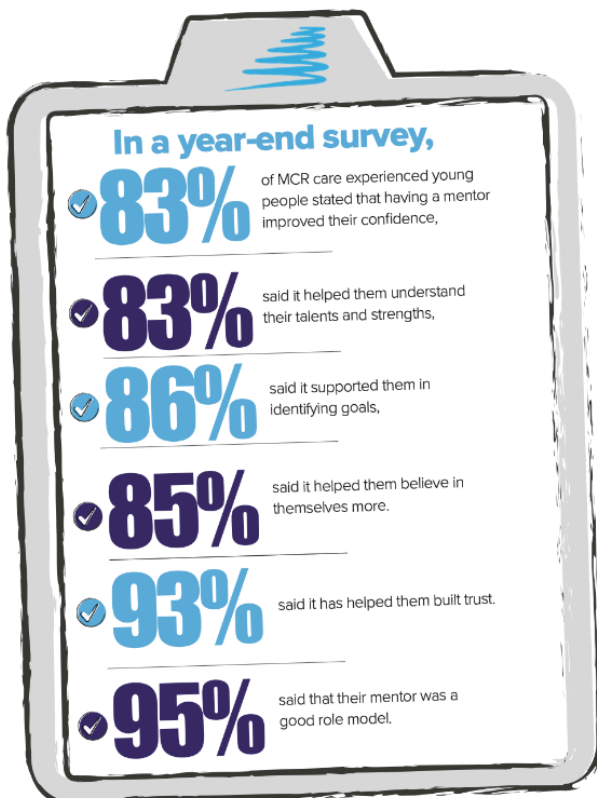

further highlighting the  
vulnerabilities they face.

Over  
**63,000**  
mentoring hours

recorded building relationships,  
confidence & aspiration.

## What having an MCR Mentor Means...

## Transforming Education & Skills Outcomes...

**82.9%**  
of MCR care experienced  
young people progressed to  
college, university or  
employment in comparison  
to national care experienced  
young people without MCR  
of **69.1%**

MCR care experienced young  
people achieving **at least 5**  
qualifications  
at National 4 was...

**86.6%**  
in comparison to the  
national care experienced  
level of... **61.2%**

MCR care experienced  
young people achieving **at least**  
1 qualification at National 5  
was...

**89.8%**  
in comparison to the  
national level of... **65.7%**

**41.3%**  
of MCR mentored care  
experienced young people  
achieved **at least 1 Higher**  
qualification before leaving  
school in comparison to the  
national level of... **29.2%**

# MCR National Summary: Young People Supported 2023

## MCR Scotland Group Definitions

### YOUNG PEOPLE **Group 1** WITH SOCIAL WORK INVOLVEMENT

- Looked After At Home
- Looked After Away from Home
- Informal Social Work supervision
- Previously Looked After

### YOUNG PEOPLE **Group 2** WITH CONTINUOUS INSTABILITY AT HOME

- Addiction issues
- Asylum seekers & refugees
- At risk of homelessness
- At risk of Social Work involvement
- Informal kinship care
- Parent in prison
- Parental bereavement
- Prolonged financial hardship
- Safeguarding concern
- Serious illness
- Teenage pregnancy
- Lack of 'one good or consistent adult'
- Young carer

## MCR Young People Supported By Category

5109 Young People with Social Work involvement or with continuous instability at home were supported by the MCR Pathways programme across Scotland during the most recent academic year (2022/2023).

|                |      |
|----------------|------|
| <b>Group 1</b> | 1986 |
| <b>Group 2</b> | 3123 |

## MCR Young People Supported By Year Group

The following table breaks down those who were supported in each year group.

| <b>S1</b> | <b>S2</b> | <b>S3</b> | <b>S4</b> | <b>S5</b> | <b>S6</b> | <b>Total</b> |
|-----------|-----------|-----------|-----------|-----------|-----------|--------------|
| 911       | 1127      | 1265      | 950       | 569       | 287       | <b>5109</b>  |

*\* Note: The total number of combined S1s and S2s supported is higher than those who participated in Group Work (table below) due to the fact that some S1s and S2s are directly supported by the Pathways Coordinator and there are also a number of S2s who are matched and meeting with a mentor prior to entering S3.*

## MCR Young People By Engagement Activity

The following table shows the different ways young people were supported.

|                                                                                                                                                                                                                                                                                                                           |      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>S1/S2 Group Work</b><br><i>Young people participating in weekly group work during the academic year. Group work focuses on building self-esteem and confidence, strengths and interests, teamwork, problem solving and employability skills.</i>                                                                       | 1850 |
| <b>Mentored</b><br><i>Young people supported by a mentor last academic year.</i>                                                                                                                                                                                                                                          | 2577 |
| <b>PC Supported</b><br><i>Young people provided with additional, individual support from the PC. This is on a frequent and regular basis; 45 minutes or more each week. Often PCs are asked to work with young people to support their wellbeing or attendance, and help prepare them to have a mentor in the future.</i> | 193  |
| <b>YP engaging with PC towards Mentoring</b>                                                                                                                                                                                                                                                                              | 489  |

## Positive Destinations - Mentored MCR Care Experienced vs National Care Experienced

Across Scotland, a greater percentage of care-experienced young people on the MCR Pathways programme achieved positive destinations compared with the National average.

|               | Group 1 Mentored |     | National Care-Exp |      |
|---------------|------------------|-----|-------------------|------|
| MCR positive  | 257              | 310 | 742               | 1012 |
|               | 82.9%            |     | 73.3%             |      |
| Scottish Govt | 292              | 310 | 890               | 1012 |
|               | 94.2%            |     | 87.9%             |      |

\* The criteria for an "MCR positive" destination is higher than that which is used by the Scottish Government. MCR considers entry into Higher Education, Further Education or Employment/Apprenticeship as a positive outcome, whereas the Scottish Government also includes other training programmes, personal skills development and voluntary work. MCR estimates that removing MCR young people from the national calculations reduces the % progressing to MCR positives nationally to 69.1%.

## Positive Destinations - Full Table

We also see from the table below that a high percentage of other vulnerable MCR mentored young people (Group 2) are achieving positive destinations.

|               | Group 1 Mentored |     | Group 1 Non-Mentored |     | Group 2 Mentored |     | National Care-Exp |      | National universal |       |
|---------------|------------------|-----|----------------------|-----|------------------|-----|-------------------|------|--------------------|-------|
| MCR positive  | 257              | 310 | 329                  | 513 | 286              | 322 | 742               | 1012 | 49936              | 54719 |
|               | 82.9%            |     | 64.1%                |     | 88.8%            |     | 73.3%             |      | 91.3%              |       |
| Scottish Govt | 292              | 310 | 431                  | 513 | 312              | 322 | 890               | 1012 | 52465              | 54719 |
|               | 94.2%            |     | 84.0%                |     | 96.9%            |     | 87.9%             |      | 95.9%              |       |

## Young People Attainment - S5 - Mentored Care Experienced vs National Care Experienced

Across Scotland, attainment figures increase significantly for (Group 1) care-experienced MCR Mentored young people in comparison to the National average.

| S5 achieving of presented cohort | Lit & Num at Nat. 4+ |     | 5+ Qualifications at Nat. 4+ |     | 1+ Qualifications at Level 5+ |     | 3+ Qualifications at Level 5+ |     |
|----------------------------------|----------------------|-----|------------------------------|-----|-------------------------------|-----|-------------------------------|-----|
| Group 1 Mentored                 | 153                  | 186 | 161                          | 186 | 167                           | 186 | 124                           | 186 |
|                                  | 82.3%                |     | 86.6%                        |     | 89.8%                         |     | 66.7%                         |     |
| National care-exp                | 494                  | 721 | 441                          | 721 | 474                           | 721 | 316                           | 721 |
|                                  | 68.5%                |     | 61.2%                        |     | 65.7%                         |     | 43.8%                         |     |

## Young People Attainment - S5 (Full Table)

This table includes a comparison with non-mentored young people in programme areas and also our Group 2 young people who experience significant instability. As with the above table we can see a marked difference in attainment in favour of young people who benefit from a supportive mentoring relationship.

| S5 achieving of presented cohort | Lit & Num at Nat. 4+ |     | 5+ Qualifications at Nat. 4+ |     | 1+ Qualifications at Level 5+ |     | 3+ Qualifications at Level 5+ |     |
|----------------------------------|----------------------|-----|------------------------------|-----|-------------------------------|-----|-------------------------------|-----|
| Group 1 Mentored*                | 153                  | 186 | 161                          | 186 | 167                           | 186 | 124                           | 186 |
|                                  | 82.3%                |     | 86.6%                        |     | 89.8%                         |     | 66.7%                         |     |

## S4 to S5 Staying On Rate

|                       | Group 1 Mentored |     | Group 1 Non-Mentored |     | Group 2 Mentored |     |
|-----------------------|------------------|-----|----------------------|-----|------------------|-----|
| S4>S5 Staying on rate | 178              | 276 | 195                  | 454 | 248              | 398 |
|                       | 64.5%            |     | 43.0%                |     | 62.3%            |     |

## Free Meal Entitlement - National Summary

**60.6%** of MCR Young People are registered for Free School Meals. This rises to above 70% in 2 of our Local Authorities and over 80% in another area where the programme is operating.

| Registered for FME | Not currently registered for FME |
|--------------------|----------------------------------|
| <b>60.59%</b>      | <b>39.41%</b>                    |

## SIMD - National Summary

**Over 50%** of MCR Young People are among the most deprived 20% of Scotland's population according to SIMD data recorded against our active caseload.

**Over 70%** of young people are situated within SIMD 40 postcode areas - important for HE and FE institutions who have a responsibility and targets to achieve with regards to "harder to reach" young people.

| Bottom Quintile | Second Quintile | Third Quintile | Fourth Quintile | Top Quintile |
|-----------------|-----------------|----------------|-----------------|--------------|
| <b>52.06%</b>   | <b>19.72%</b>   | <b>14.01%</b>  | <b>8.90%</b>    | <b>5.31%</b> |

| SIMD 20%      | Other SIMD Bands |
|---------------|------------------|
| <b>52.06%</b> | <b>47.94%</b>    |

| SIMD 40%      | Other SIMD Bands |
|---------------|------------------|
| <b>71.78%</b> | <b>28.22%</b>    |

**Note:** Reporting Dataset and calculations based on young people where SIMD status has been added to the system.

## ASN - National Summary

Almost **two thirds** of young people who were supported by the programme in the last academic year have one or more additional support needs and we anticipate that this will continue to rise.

| ASN Category Count → | 1           | 2          | 3          | 4          | Total       | Total YP    | % 1 or More ASN |
|----------------------|-------------|------------|------------|------------|-------------|-------------|-----------------|
| <b>Total</b>         | <b>2983</b> | <b>514</b> | <b>155</b> | <b>119</b> | <b>3771</b> | <b>5749</b> | <b>65.59%</b>   |

## 2: Impact on Education Outcomes - Developing Areas

The following section provides a summary of rolled up data and statistics from the last academic year across all areas where the MCR Pathways programme is **new or developing** towards full implementation and integration.

## Developing Local Authorities - Young People Supported 2023

### MCR Young People Supported By Category

Over 3100 young people in new and developing areas were supported via the MCR Pathways programme during the last academic year.

|         |      |
|---------|------|
| Group 1 | 1217 |
| Group 2 | 1903 |

### MCR Young People Supported Year Group

These are the figures for new and developing areas in Scotland, broken down by year group.

| S1  | S2  | S3  | S4  | S5  | S6  | Total |
|-----|-----|-----|-----|-----|-----|-------|
| 555 | 761 | 794 | 597 | 299 | 114 | 3120  |

### MCR Young People Supported By Engagement Activity

Similar to our most mature and established area, over 50% of those supported are via a mentoring relationship, with the rest participating in S1/S2 Groupwork, engaging towards mentoring or receiving regular additional, individual support from the Pathways Coordinator.

|                                       |      |
|---------------------------------------|------|
| S1/S2 Group Work                      | 1179 |
| Mentored                              | 1518 |
| PC supported                          | 108  |
| YP engaging with PC towards Mentoring | 315  |

### Positive Destinations: Mentored MCR Care Experienced vs National Care Experienced

Even when our most mature Local Authority is removed from the figures we observe that a higher percentage of mentored, care-experienced young people are achieving a positive destination.

|               | Group 1 Mentored |     | National care-exp |      |
|---------------|------------------|-----|-------------------|------|
| MCR positive  | 142              | 173 | 742               | 1012 |
|               | 82.1%            |     | 73.3%             |      |
| Scottish Govt | 157              | 173 | 890               | 1012 |
|               | 90.8%            |     | 87.9%             |      |

\* The criteria for an "MCR positive" destination is higher than that which is used by the Scottish Government. MCR considers entry into Higher Education, Further Education or Employment/Apprenticeship as a positive outcome, whereas the Scottish Government also includes other training programmes, personal skills development and voluntary work. MCR estimates that removing MCR young people from the national calculations reduces the % progressing to MCR positives nationally to 69.1%.

## S4 to S5 Staying On Rate

|                       | Group 1 Mentored |     | Group 1 Non-Mentored |     | Group 2 Mentored |     |
|-----------------------|------------------|-----|----------------------|-----|------------------|-----|
| S4>S5 Staying on rate | 107              | 178 | 136                  | 339 | 128              | 221 |
|                       | 60.1%            |     | 40.1%                |     | 57.9%            |     |

## FME - New and Developing Areas

We have identified that the majority of young people in our developing areas are registered for Free School Meals. There are likely to be more young people who are entitled, but have not (yet) taken up the offer.

| Registered for FME | Not currently registered for FME |
|--------------------|----------------------------------|
| 54.91%             | 45.09%                           |

## SIMD - New and Developing Areas

In our new and developing areas, we can see that the biggest proportion of young people being reached and supported by the programme are within SIMD20 and SIMD40 areas.

| Bottom Quintile | Second Quintile | Third Quintile | Fourth Quintile | Top Quintile |
|-----------------|-----------------|----------------|-----------------|--------------|
| 44.84%          | 21.39%          | 16.70%         | 10.79%          | 6.29%        |

| SIMD 20% | Other SIMD Bands |
|----------|------------------|
| 44.84%   | 55.16%           |

| SIMD 40% | Other SIMD Bands |
|----------|------------------|
| 66.23%   | 33.78%           |

## ASN - New and Developing Areas

| ASN Category Count → | 1    | 2   | 3   | 4   | Total | Total YP | % 1 or More ASN |
|----------------------|------|-----|-----|-----|-------|----------|-----------------|
| Total                | 1494 | 514 | 155 | 119 | 2282  | 3804     | 59.99%          |

## 3: Impact on Education Outcomes - At Maturity

The following section provides a summary of data and statistics from the last academic year in a local authority where the MCR Pathways programme is **operating at maturity**.

# AN HOUR A WEEK, A LIFETIME OF IMPACT

## MCR Young People across Glasgow (in the last year)...

**1,989**

young people Supported

Representative of all parts of the city.

These include those...

WITH SOCIAL WORK INVOLVEMENT

and...

CONTINUOUS INSTABILITY AT HOME

- Looked After At Home
- Looked After Away from Home
- Informal Social Work supervision
- Previously Looked After

- Addiction issues
- Asylum seekers & refugees
- At risk of homelessness
- At risk of social work
- Informal kinship care
- Parent in prison
- Parental bereavement
- Prolonged financial hardship
- Safeguarding concern
- Serious illness
- Teenage pregnancy
- Lack of one good adult
- Young carer

**70%**

of Glasgow MCR young people

people live in the most

**20% deprived parts of the country**

yet with MCR support consistently achieve the **increased level of outcomes.**

**71.4%**

of MCR young people are registered for free school meal entitlement, indicating high levels of deprivation.

**76.6%**

of MCR supported young people have one or more additional support needs (ASN)

further highlighting the vulnerabilities they face.

Over **26,750**

mentoring hours recorded building relationships, confidence & aspiration.

## What having an MCR Mentor Means...

In a year-end survey,

✓ **83%** of MCR care experienced young people stated that having a mentor improved their confidence,

✓ **83%** said it helped them understand their talents and strengths,

✓ **86%** said it supported them in identifying goals,

✓ **85%** said it helped them believe in themselves more.

✓ **93%** said it has helped them built trust.

✓ **95%** said that their mentor was a good role model.

## Transforming Education & Skills Outcomes...

**83.9%**

of MCR care experienced young people progressed to college, university or employment in comparison to **national care experienced young people without MCR of... 69.1%**

**89.5%**

in comparison to the **national level of... 65.7%**

MCR care experienced young people achieving **at least 5 qualifications** at National 4 was...

**88.4%**

in comparison to the **national care experienced level of... 61.2%**

**48.2%**

of MCR mentored care experienced young people achieved **at least 1 Higher qualification** before leaving school in comparison to the **national level of... 29.2%**

## Mature Area Comparator - Young People Supported 2023

### MCR Young People Supported By Category

In our most mature Local Authority, just under 2000 Young People were supported by the programme during the most recent academic year (2022/2023).

|         |      |
|---------|------|
| Group 1 | 769  |
| Group 2 | 1220 |

### MCR Young People Supported By Year Group

These are the figures, broken down by year group.

| S1  | S2  | S3  | S4  | S5  | S6  | Total |
|-----|-----|-----|-----|-----|-----|-------|
| 356 | 366 | 471 | 353 | 270 | 173 | 1989  |

### MCR Young People Supported By Engagement Activity

In the previous academic year over 1000 young people were supported and encouraged by an MCR Mentor - each of these relationships reliant on the MCR Pathways Coordinator for support. Just short of an additional 1000 young people were supported via Group Work and direct support and engagement via their Pathways Coordinator.

|                                                                                                                                                                                                                                                                                                                           |      |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| <b>S1/S2 Group Work</b><br><i>Young people participating in weekly group work during the academic year. Group work focuses on building self-esteem and confidence, strengths and interests, teamwork, problem solving and employability skills.</i>                                                                       | 671  |
| <b>Mentored</b><br><i>Young people supported by a mentor last academic year.</i>                                                                                                                                                                                                                                          | 1059 |
| <b>PC supported</b><br><i>Young people provided with additional, individual support from the PC. This is on a frequent and regular basis; 45 minutes or more each week. Often PCs are asked to work with young people to support their wellbeing or attendance, and help prepare them to have a mentor in the future.</i> | 85   |
| <b>YP engaging with PC towards Mentoring</b>                                                                                                                                                                                                                                                                              | 174  |

### Positive Destinations: Mentored MCR Care Experienced vs LA and National Care Experienced

|               | Group 1 Mentored |     | LA Care-Exp. |     | National Care-Exp |      |
|---------------|------------------|-----|--------------|-----|-------------------|------|
| MCR positive  | 115              | 137 | 108          | 146 | 742               | 1012 |

| Scottish Govt | 135              | 137 | 140          | 146 | 890               | 1012 |
|               | 98.5%            |     | 95.9%        |     | 87.9%             |      |

\* The criteria for an "MCR positive" destination is higher than that which is used by the Scottish Government. MCR considers entry into Higher Education, Further Education or Employment/Apprenticeship as a positive outcome, whereas the Scottish Government also includes other training programmes, personal skills development and voluntary work. MCR estimates that removing MCR young people from the national calculations reduces the % progressing to MCR positives nationally to 69.1%.

## FME - Area at Maturity

| Registered for FME | Not currently registered |
|--------------------|--------------------------|
| 71.40%             | 28.60%                   |

## SIMD - Area at Maturity

In our most mature implementation of the programme, the proportion of young people from the most deprived areas is higher than the National average, based on current data captured. With regards to SIMD40, young people from these postcode areas make up over **85%** of the active caseload. It should be noted that our assumed more 'affluent' schools, MCR supported young people numbers are also high (E.g At Hyndland Secondary, 65% are in SIMD20).

| Bottom Quintile | Second Quintile | Third Quintile | Fourth Quintile | Top Quintile |
|-----------------|-----------------|----------------|-----------------|--------------|
| 70.04%          | 15.56%          | 7.32%          | 4.20%           | 2.88%        |

| SIMD 20% | Other SIMD Bands |
|----------|------------------|
| 70.04%   | 29.96%           |

| SIMD 40% | Other SIMD |
|----------|------------|
| 85.60%   | 14.40%     |

## ASN - Area at Maturity

| ASN Category Count → | 1 or more ASN | Total | Total YP | % 1 or More ASN |
|----------------------|---------------|-------|----------|-----------------|
| Total                | 1489          | 1489  | 1945     | 76.56%          |

## 4: Impact on Young People - National Year End Survey

>90%

of mentored young people agree

“  
*My mentor encourages me to  
be the **best version of myself***  
”

95%

of mentored young people said

“  
*my mentor was a  
**positive role model***  
”

86.5%

of mentored young people stated

“  
***mentoring** has supported me  
to **identify goals***  
”

84.8%

of mentored young people said that

“  
***Mentoring** has helped me  
improve my **self belief***  
”

| Survey Question                                                                | Agree or Strongly Agree |

## Comparison of Mentee and Mentor Responses

## 5. Recorded Mentoring Hours - National, Per LA

| Mentoring Hours Recorded    | 22/23            | 23/24 (to date)  |
|-----------------------------|------------------|------------------|
| Aberdeen City Council       | 3,624.00         | 1,804.00         |
| Aberdeenshire Council       | 3,654.00         | 4,124.50         |
| Argyll and Bute Council     | 21.00            | 1,323.00         |
| City of Edinburgh Council   | 6,744.00         | 5,884.00         |
| Clackmannanshire Council    | 2,061.00         | 2,106.00         |
| Dundee City Council         | 2,234.00         | 3,499.00         |
| East Dunbartonshire Council | 0                | 1,669.00         |
| Falkirk Council             | 1,181.00         | 1,045.00         |
| Fife Council                | 2,723.50         | 3,230.50         |
| Glasgow City Council        | 26,796.00        | 25,707.50        |
| Highland Council            | 2,560.00         | 3,244.50         |
| Inverclyde Council          | 1,146.50         | 1,028.50         |
| North Ayrshire Council      | 4,232.00         | 4,555.00         |
| Perth & Kinross Council     | 1,467.50         | 1,020.00         |
| South Lanarkshire Council   | 4,851.00         | 4,579.50         |
| <b>Total</b>                | <b>63,306.00</b> | <b>64,820.00</b> |

\* **Note:** Total mentoring hours logged during 2021/2022 were 37,365.00 as the programme expanded into new areas - bringing the total to **165,491.00** since the programme started receiving Scottish Government funding.

## 6. Mentoring Impact - Recent Views From Young People, Mentors & Schools

Alongside the positive impact on engagement and achievement, school colleagues report a positive impact on their capacity, since young people benefit from the support of two additional trusted adults (Mentor and Pathways Coordinator). Mentoring also increases general awareness and wider understanding of the challenges that young people might be experiencing.

**Note:** Names of young people have been anonymised to protect their privacy. For the same reason, mentor names have been changed or shortened.

### S1 and S2 Group Work

*We get the chance to talk about what we like and what we are good at. Our Pathways Coordinator makes us feel like we can do anything we want with our life.*

**S1 Young Person, North-East**

*I love group work because it is fun. It makes me want to come to school on a Friday.*

**S1 Young Person, Glasgow**

*I really liked speaking about the mentor thing cause my friend in S3 has a mentor and they seem really nice. It's good to know we'll still get one too when we don't have group work with my Pathways Coordinator anymore because that'll be rubbish. Actually, can we not just do group work up until we leave school?*

**S2 Young Person**

*We get to do different tasks each week and discuss how our mental health is and act out different stories in person. I like the rest of the people in the group, they are all my friends.*

**S2 Young Person, Glasgow**

//

*It's fun being part of the MCR group work. We get to do fun stuff, have a laugh but get our work done too. Our Pathways Coordinator has been talking to us about mentoring and we're really looking forward to getting matched to a mentor when we go into S3.*

**S2 Young Person**

## Mentored Young People - S3 to S6

//

*"I didn't expect to enjoy this or benefit from this as much as I have. I'm not someone who trusts easily so I took my time but I'm so glad I stuck it out. She is **AMAZING!!!!** The best thing is having someone to talk to. A **safe space** to let everything out. Coming into school and telling someone who cares and listens."*

**Edinburgh Mentee**

*"It started off easier than expected, since there was many things in common. My mentor has given me **advice on everything** that i have planned yet never forced it upon me"*

//

**Young Person, Aberdeenshire**

//

*"To my **Pathways Coordinator** - I just wanted to thank you again for all the **support** and **encouragement** you've given me throughout my time at school. You've helped me so much and I just can't thank you enough! I am very excited to tell you that **I've been accepted into St Andrews!** I'm still in shock and I haven't really processed it. You, MCR Pathways and my mentor have made a **huge difference** in my life so thank you for helping me get this far! I can't wait to start my new journey at St Andrews and I'll be taking all the valuable lessons and confidence you've given me along with me!"*

**Glasgow Mentee**

*It took me a lot to go to school, it felt very draining, But **mentoring definitely did help** with that. I was very anxious but mentoring has helped. It was great to be able to finally talk to somebody after having to keep it in for a while. It was a great relief. It's honestly been a great*

//

*experience. I definitely wouldn't be the person that I am now if it wasn't for B\*. I remember B\* helping me with my personal statement for uni and colleges and that definitely helped me get into some of the colleges and unis I've sent it out to.*

**South Lanarkshire Mentee**

//

*"I have been part of MCR Pathways since S1, back then I was part of group work with my Pathways Coordinator. Whilst working with her, she helped me settle into S1 and has always given me the support I needed to help me in school...*

*In S3 I was matched up with my mentor. Having M\* every week has been good for me and I always knew if I had any problems that M\* would also be there to support me and listen to what I have to say. At the moment M\* and my Pathways Coordinator are helping me and supporting me with my personal statement for me leaving in S6 and going into College.*

*At first, I wasn't too sure of having a mentor and was unsure of who it was going to be, but having a mentor through my years of school was one of the best things I went forward for and would encourage others to go for it.*

**S6 Leaver, Glasgow**

*I like having my mentor to speak to about anything. He's helped me to identify my strengths and supported me with my career options and future plans.*

//

**Young Person, Inverclyde**

//

*I love the programme. I have recently joined and already I have been matched with a mentor who I get on great with. I have just attended a Talent Taster at the Sheriff Court. This has really inspired me to become a lawyer.*

**Glasgow Young Person**

## Mentor Voices

//

*"Since starting with MCR last year, I've noticed a **huge improvement** in the **confidence** of my YP. At the start she was very quiet and didn't say hello or cheerio. Now she does both and chats much more about everything. [...] She has become much more **focused on her future** and talks about what her plans are for college etc. She went on a Talent Taster offering Hair and Beauty and really enjoyed it and spoke about how useful it was.*

*I feel MCR has been a great project for my YP and the way her **confidence and general attitude** has developed in such a short period of time is **remarkable**. The Pathways Coordinator is **always on hand** to answer questions and offer any support if needed. Overall, I think MCR is a **fantastic opportunity** for any YP who might benefit from some extra support at school.*

Glasgow Mentor

*I have enjoyed being part of the relationship as it **grew and developed** into what we have today and I'm looking forward to where it may go in the future. They continue to navigate a tumultuous period in their life well. They are developing a **strong sense of self** and their focus on the **goals that matter** to them has sharpened **significantly**.*

Mentor, Falkirk

//

//

*When we first met, my mentee had a **lot of anxiety** about how behind she was in school. In a few sessions I was able to **bring her around** to the idea that adults in school are all trying to help her do her best. What previously would have been her ignoring poor grades and attendance turned into her **developing relationships with teachers**, asking for help, and seeking advice on material. She also used to be much more focused on what other people need and want, and through our time together I've tried to focus on her **meeting her own needs**. I see this in her **confidence** and the friendships she is holding on to."*

Aberdeen Mentor

*We have **achieved a lot** in a short space of time, from a change of career path, to getting a conditional acceptance for the course at **Aberdeen University** - which was her first choice - and means she could end up with a HNC in Drama. I'm **over the moon** for her and have*

//

*asked her to remember me when she is on the red carpet in years to come!*

**Mentor, Peterhead**

**//** *I've built a really close connection with my young person and it's wonderful knowing I can have an **impact** on their life. My young person has started to **feel differently about school** and is making an effort to **increase their attendance**. I think they're starting to see the longer term benefits of engaging more with school, and are **thinking more about their future** and what they are capable of beyond school.*

**Mentor, Inverclyde Academy**

*The best thing about being a mentor is being able to make a **positive difference** to someone. I have noticed my mentee now has **improved self confidence** and they are considering different **job opportunities**.*

**Mentor, Larkhall Academy**

**//** *It's been good to see my mentee **grow** and become more assertive over the years. They've **achieved their goals despite the obstacles they've experienced**. I like talking and listening to my mentee and enjoy my time with her.*

**Mentor, North Ayrshire**

*We became friends, we had a laugh and a joke and chatted about everything and nothing. I **helped him understand his earning potentials with different levels of qualifications from school/college/uni and helped through the UCAS application process**. They were delighted to receive **acceptances to their chosen course** and know what they need to do to succeed.*

**Highland Mentor**

## Praise from School Staff

//

*These **outcomes for our young people** are only possible because of the meticulous attention to detail when matching a mentor to a young person / planning group work and talent tasters which Derek Montgomery, our MCR Pathways Coordinator, plans to precision. He is a highly visible presence in our school; all young people and staff know who he is. These **positive relationships** that Derek builds with young people, their parents and carers, our staff and mentors, are what makes him a **key member** of our wider student support team and is what **underpins the success of this programme** in our school.*

Laura Farrell, MCR School Link, St Thomas Aquinas

*Mentoring is a great opportunity for young people to help encourage them to **achieve their full potential**. Our Young people feel that this additional support helps boost their **interpersonal skills, self confidence** and provides further guidance to **career pathways**. It's great to see our young people actively engage in dialogue with their mentors in such a positive way*

//

Fife School Link

//

*We've found the benefits to be really **transformational**. In particular, **improved outcomes around attainment and improved positive destinations**.*

Colin Bruce,  
Chief Education Officer, Clackmannanshire Council

*At that [initial] meeting ... right away I could see in my brain the young people that I knew that this was going to have such an **impact on their life**.*

//

*Very often young people need someone to speak to and it's not often the family and very often it's not the teaching staff. They do get great support in the school, but sometimes they just like that person who wants to listen to them. And again, that other person who's going to be able to **recognise their skills and their talents**...*

*For us **it's worked** and I would definitely tell [potential schools], you know and to **take the opportunity** if it was given to them...*

*...For me, mentoring is just having that one constant person who is there to listen to you, to encourage you, not always agree with you, you know, because sometimes mentors have to have hard conversations with young people. It's not always just agreeing with what the young person says, but also letting them **see the opportunities that are out there**. It's not always coming from a teacher or coming from a skills development's group. It's coming from someone outside who really has no invested interest other than that young person...*

*..I think it certainly has its place within the school and it **definitely has a positive impact** on our young people.*

**Alison Craig - Head Teacher - Trinity, South Lanarkshire**

//

*We have had some really **great relationships** built up in the last year that I've been here, and it's great to see the longevity and how those relationships are sustained and how willingly **young people engage with mentoring** because they think; "I like that person. **I'm going to show up today because that person's coming in to see me and I'm going to enjoy that wee half an hour I've got having that conversation.**"*

**Joanne Faulkner - DHT - Hamilton Grammar**

*"MCR Pathways has had an **incredible** impact on many young people. Mentorship can give people from vulnerable backgrounds the **confidence** they might never have had the chance to develop, to **realise their ambitions and transform their lives.**"*

**Annette Brunton, Principal, Edinburgh College**

//

*"The MCR program has made a **significant impact** to the school as a whole. The primary positive is having another adult in the building who young people can go to and can build a relationship with. Mentors bring **real life experience** and a different voice that young people can engage with and listen to. Some young people may have some challenging relationships with school staff, but they feel they can **build relationships of trust** with their mentor. There's a credibility that comes from a mentor - young people are more willing to listen to what they say. Being able to talk to someone outside of the school environment makes a real difference.*

*Our young people who have participated are **much more open and***

*engaged with teachers, more focused and are more willing to participate in the life of the school. They want to be here and engage in learning. They've got a plan. And there's no getting away from the fact that the MCR programme has played a big part in that."*

**Stephen Colligan, Head Teacher, St Matthew's Academy**

## **Case Study - Laura\* and Linda\***

### **Eastbank Academy: Meeting since May 2019**

The Pathways Coordinator (PC) met Laura on his first day and it was also Laura's first Day in S1. Laura then joined the groupwork. She was always great with answering and asking questions, but she got involved with arguments with other pupils and got very angry at times. Laura's attendance was great, but her attitude could have been better at times.

When looking for a mentor the PC looked for someone who had been to university as this would be a good support for Laura as she had aspirations to go to university to be a paramedic. The PC also wanted a mentor who had good listening skills and who would be able to encourage Laura to see things from other's point of view.

When meeting her mentor they hit it off straight away and grew from strength to strength. Each week the PC watched Laura's confidence grow and her attendance was always great. Laura started to seem much calmer and always attended supported study and any extra classes.

Laura has grown massively from a young immature girl who at times struggled to control her emotions into a mature young woman who will hopefully go on to university and become a Paramedic.

Laura had a tutor for English, organised by MCR which helped her get her Higher. She also attended Talent Tasters and was part of the MCR Ambassador group.

Laura has progressed on to Glasgow Clyde College to study HNC Healthcare. Laura and Linda still keep in touch.

## **Case Study - Beverley\* and Collette\***

### **Hillhead High School: Meeting since September 2019**

Beverley was facing many challenges inside and outside of school. She tragically lost her mum, main carer to cancer when she was in S2 and was brought up with her older brother. This had an impact on maintaining friendships with her peers.

The Pathways Coordinator (PC) explained to Beverley about the benefits of being part of the programme and how Mr Greechan, her Pastoral Care Teacher thought that she would benefit from having a mentor.

When looking for a match, the PC was looking for someone who would be nurturing and supportive and thankfully Collette came into our lives. She was a fabulous match for Beverley – champions her all the way.

It has been a privilege to see Beverley and Collette's mentor-mentee relationship grow, even during Covid they kept the momentum going. Collette was Beverley's biggest champion, encouraging her to reach her full potential. Which in turn boosted Beverley's confidence.

As a school we were worried about Beverley going onto a positive destination, but she has absolutely turned her life around. In the last few months of school Beverley grew hugely in confidence. She was determined to get a job with the NHS, as she hopes to pursue a career as a nurse later in life.

Beverley attended an MCR Talent Taster to a nursery, completed a week's work experience and supported Hillhead Primary once a week for 4-6 weeks with gym time for P1.

Beverley has moved on to become a healthcare support worker.

## **Case Study - Isabel\* and Molly\***

### **Shawlands Academy: Meeting since August 2019**

The Pathways Coordinator (PC) began working with Isabel in S1 MCR groupwork. Isabel was a very introverted young person, who had loads of potential but lacked in confidence. She struggled to get involved with her peers in groupwork due to the dynamic of the group and how extroverted they were compared to her, but would always contribute what she could.

Isabel was a bit uncertain about having a mentor, but as the PC had worked with her for 2 years already, she said she would give it a go and see how she got on. When the PC was looking for a mentor for her she was looking for someone who would be good for an academic young person and had similar interests. She knew that Molly would meet Isabel's needs and from reading her profile. She would have the right nature, skills and personality to nurture Isabel's potential and really empower and encourage her to reach this.

At first, Isabel was reserved and Molly didn't get a lot of conversation from her. However, Isabel turned up to her meetings each week and within a short timeframe, Isabel was engaging brilliantly with her mentor. Isabel's ambition and confidence was growing with each of the meetings and Molly helped her to channel her focus. They looked at various courses and options that she could take. Molly encouraged Isabel so much and empowered her so much that Isabel applied to St Andrew's University and got a conditional offer.

Over this time during mentoring, Isabel became much more confident not just with her peers, but in her engagement with adults. Isabel has grown from an introverted, 'like to hide in the background' young person to someone who has confidence speaking not only to peers, but adults and teaching staff. She believes she can reach her goals, while taking a logical approach to solving any difficulties which may stand in her path, whether doing this herself or having the confidence to seek out someone who may be able to assist her. It is an understatement to say that she has flourished to meet her true potential.

Isabel actively participated in lots of other MCR offers including being an Ambassador, attending Talent Tasters and S1 & S2 groupwork. She is a great example of the difference the programme can make to a young life.

Isabel progressed onto St Andrew's University to study a Gateway to the Arts and still keeps in touch with Molly and Aimie the PC.

## 7. A Selection of MCR Films

Simply click the title of any of the films below to watch fantastic real-life examples of MCR's transformational impact. More films are available via [YouTube.com/MCRPathways](https://www.youtube.com/MCRPathways)
